

Windows Server 2016 : Active Directory

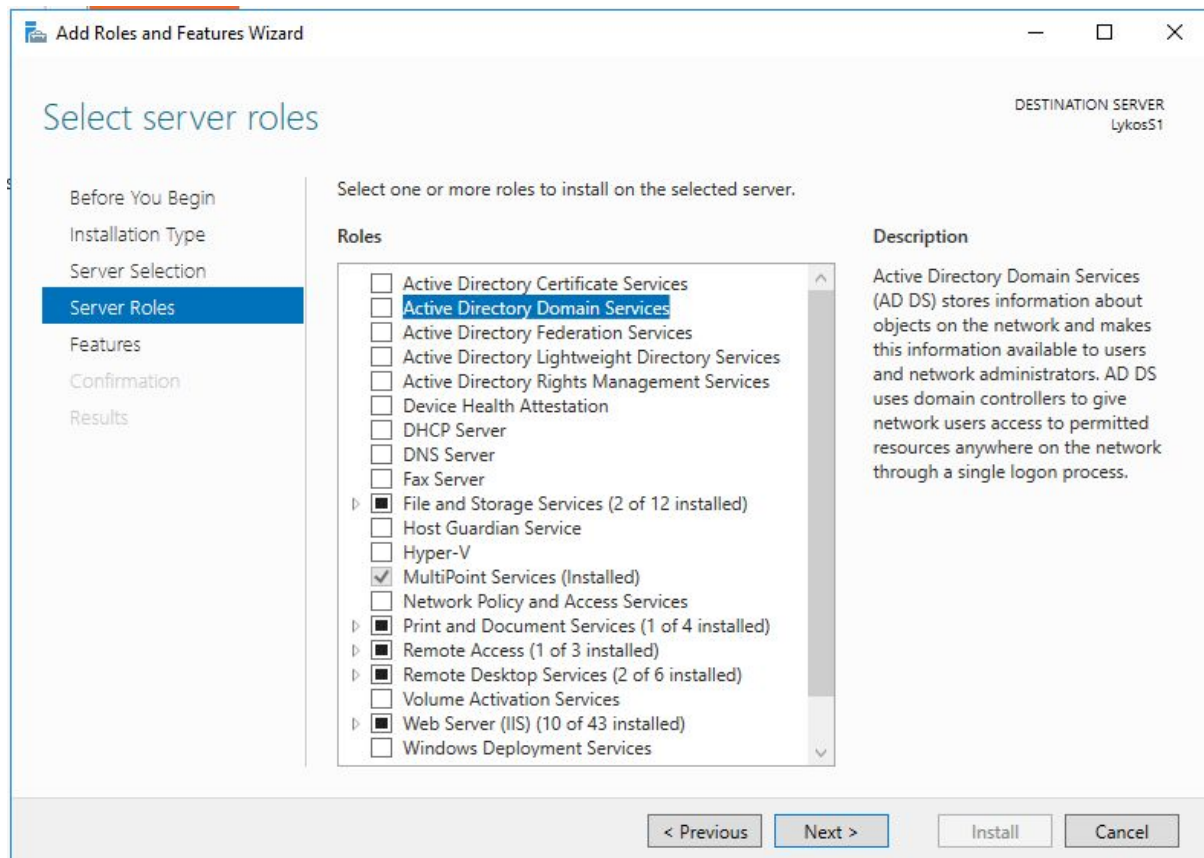

Windows Server 2016

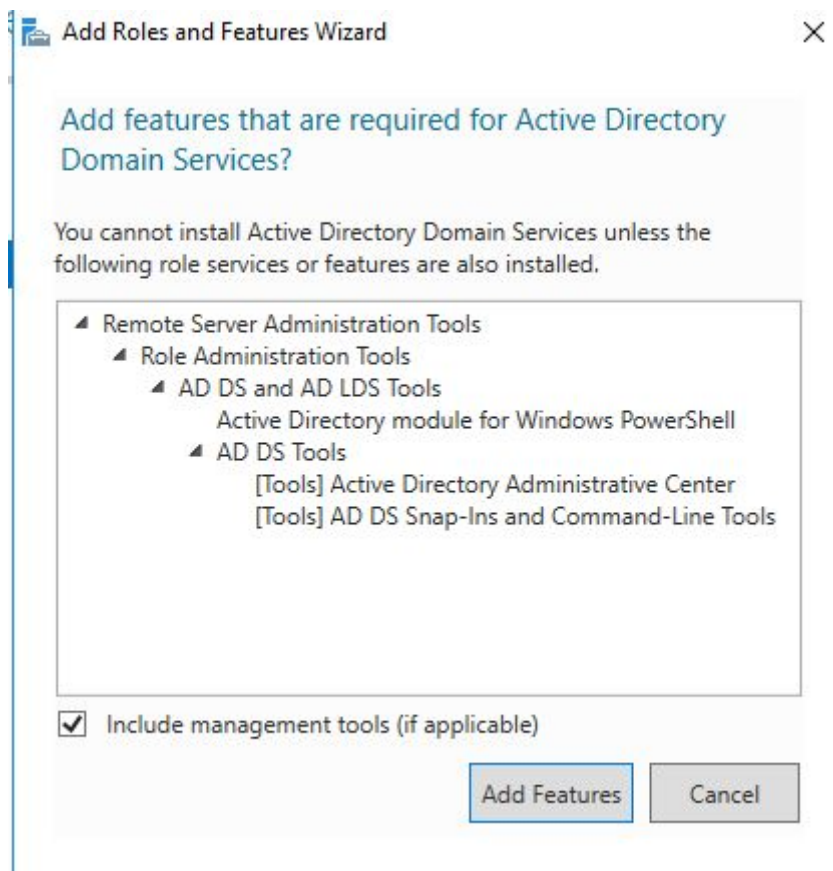

Erasmus+

On ce retrouve dans l’Ajout de rôles et de fonctionnalités de Windows Server 2016.

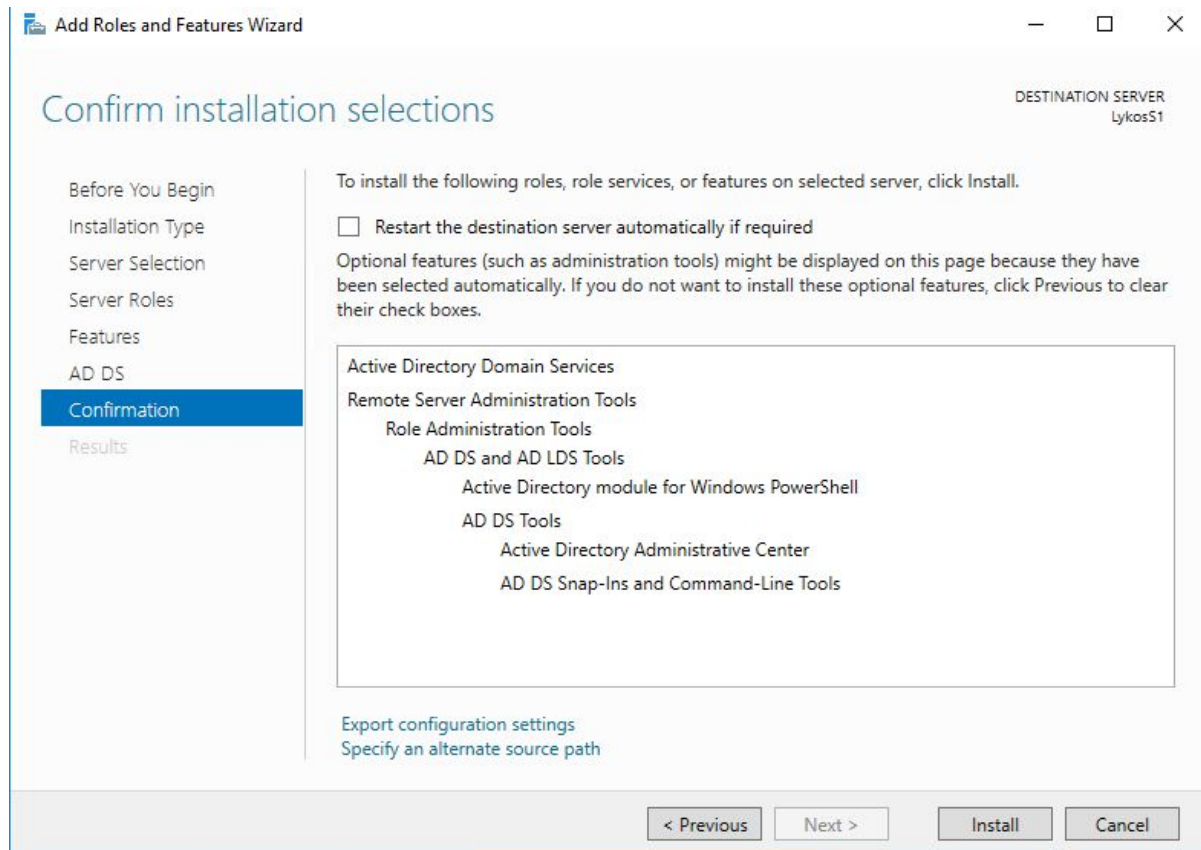

Ici, choisissez “Active Directory Domaine Service”

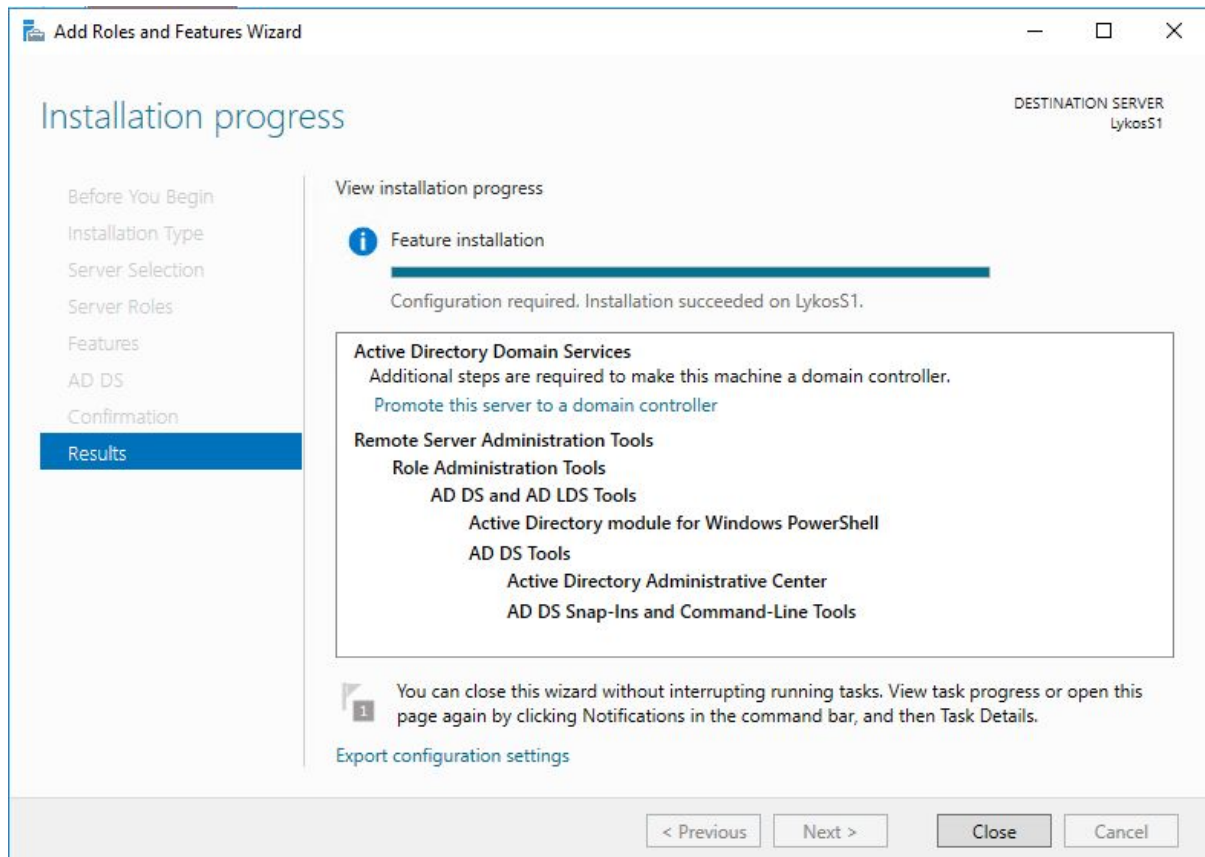

Ajoutez les fonctionnalités.

Allez dans l'onglet confirmation et installer le service

Une fois que l'installation se finit, cliquez sur " Configuration requise".

Ajouter une nouvelle forêt et renseignez son nom de domaine.

The screenshot shows the 'Active Directory Domain Services Configuration Wizard' window. The title bar includes the application name and standard window controls. The main area is titled 'Deployment Configuration'. On the left, a navigation pane lists steps: 'Deployment Configuration' (selected), 'Domain Controller Options', 'Additional Options', 'Paths', 'Review Options', 'Prerequisites Check', 'Installation', and 'Results'. The main content area has the heading 'Select the deployment operation' and three radio button options: 'Add a domain controller to an existing domain', 'Add a new domain to an existing forest', and 'Add a new forest' (which is selected). Below this, the heading 'Specify the domain information for this operation' is followed by a label 'Root domain name:' and a text input field with a red asterisk indicating a required field. At the bottom right of the main area, there is a link 'More about deployment configurations'. The bottom of the window features a grey bar with four buttons: '< Previous', 'Next >', 'Install', and 'Cancel'.

Renseignez le mot de passe pour le mode de restauration.

The screenshot shows the 'Active Directory Domain Services Configuration Wizard' window. The title bar includes the application name and standard Windows window controls. The main window has a title 'Domain Controller Options' and a 'TARGET SERVER' label 'LykosS1' in the top right corner. On the left is a navigation pane with the following items: 'Deployment Configuration' (selected), 'Domain Controller Options', 'DNS Options', 'Additional Options', 'Paths', 'Review Options', 'Prerequisites Check', 'Installation', and 'Results'. The main content area is titled 'Select functional level of the new forest and root domain'. It contains two dropdown menus: 'Forest functional level:' and 'Domain functional level:', both set to 'Windows Server 2016'. Below these is a section 'Specify domain controller capabilities' with three checkboxes: 'Domain Name System (DNS) server' (checked), 'Global Catalog (GC)' (checked), and 'Read only domain controller (RODC)' (unchecked). Further down is a section 'Type the Directory Services Restore Mode (DSRM) password' with two password fields labeled 'Password:' and 'Confirm password:'. Each field has a red asterisk icon to its left. At the bottom of the main content area is a link 'More about domain controller options'. The bottom of the window features a grey bar with four buttons: '< Previous', 'Next >', 'Install', and 'Cancel'.

Renseignez ensuite le nom NetBIOS du domaine.

The screenshot shows the 'Active Directory Domain Services Configuration Wizard' window. The title bar reads 'Active Directory Domain Services Configuration Wizard'. The main heading is 'Additional Options'. On the right, it says 'TARGET SERVER LykosS1'. A sidebar on the left lists the following steps: 'Deployment Configuration', 'Domain Controller Options', 'DNS Options', 'Additional Options' (which is highlighted with a blue bar), 'Paths', 'Review Options', 'Prerequisites Check', 'Installation', and 'Results'. The main area contains the text 'Verify the NetBIOS name assigned to the domain and change it if necessary' and 'The NetBIOS domain name:' followed by a text box containing 'LYKOSPHARMA'. At the bottom left of the main area is a link 'More about additional options'. The bottom of the window features four buttons: '< Previous', 'Next >', 'Install', and 'Cancel'.
